

Certificate of Analysis

Product AVIPure® – AAV2 Affinity Chromatography Resin	Product Code 100AAV2-XXXX	Product Lot BRP-0TEST
Date Manufactured Dec 17, 2021	Storage Conditions 2 - 8 ° C	

AVIPure® – AAV2 is comprised of a cross-linked agarose support matrix and an immobilized affinity ligand.

Criteria	Specification	Result
Total Bioburden	Sum of TAMC and TYM: ≤ 100 CFU/mL	CFU/mL
Visual Inspection	White to off-white slurry	Pass
Resin Characterization	FTIR spectrum matches library reference	Pass
Ligand Confirmation	Ligand identity confirmed	Pass
Resin Specificity	Target binds	Pass

Manufactured in the USA under an ISO 9001 Quality Management System.

Reviewed and approved for accuracy and completeness.
